PROFESSIONAL SUMMARY

Software Developer and Computer Science graduate with hands-on experience in full-stack development, API design, database systems, and cloud deployment. Skilled in building scalable applications using Flask, Node.js, Express, React, and MongoDB. Currently working as an ICT Intern at the Ministry of Education, providing technical support, system maintenance, and digital solutions for government systems. Completed a software engineering bootcamp with strong practical exposure to modern development tools.

TECHNICAL SKILLS

Programming Languages: Python, JavaScript (ES6+), SQL, Java
Frameworks & Libraries: Flask, Node.js, Express.js, React, Bootstrap 5
Databases: MongoDB, MySQL, Supabase
Tools & Technologies: REST APIs, Git, GitHub, Postman, Restfox, JSON, Linux basics
Other Skills: Troubleshooting, Networking Basics, Documentation, System Support, Debugging

PROFESSIONAL EXPERIENCE

ICT Intern — Ministry of Education (Public Service) | October 2024 – Present

- Supported maintenance and troubleshooting of government education systems.
- Resolved hardware, software, and network issues across multiple departments.
- Participated in system testing, updates, and performance improvements.
- Provided user support, documentation, and training on ICT tools.

Stock Controller — 109 Tarvern | October 2024 – Present

- Digitized inventory and stock management processes.
- Conducted regular stock audits and ensured accurate reporting.
- Reduced wastage by optimizing stock ordering and monitoring usage.

Stock Controller — Kipevu Restaurant | March 2023 – August 2024

- Managed stock levels in a high-demand kitchen environment.
- Implemented tracking systems to prevent shortages and overstocking.
- Coordinated procurement with suppliers.

PROJECTS

Restaurant Management System (Flask / MERN)

Restaurant operations system supporting menus, orders, inventory, and staff management. Built with REST APIs, database integration, and responsive UI.

Web Portfolio (Flask)

Personal portfolio showcasing skills, projects, and professional background. Built with Flask templates and Bootstrap.

Blog Platform (MERN)

Full CRUD blogging platform with JWT authentication, Express API, and React UI.

To-Do List App (MERN)

Simple productivity app with MongoDB backend and React-based interface.

EDUCATION

Bachelor of Science in Computer Science

Masinde Muliro University of Science & Technology | Graduated 2021

Software Engineering Bootcamp

PowerLearn Project Africa | Completed

CORE STRENGTHS

Problem-Solving, Analytical Thinking, Team Collaboration, Fast Learning, Attention to Detail, Strong Communication
